

OBJECTIVE

Motivated and detail-oriented Computer Science graduate with a strong foundation in software development, algorithms, and data structures. Eager to apply programming, problem-solving, and analytical skills to contribute to innovative projects. Seeking an entry-level position to gain practical experience, collaborate with cross-functional teams, and help develop high-quality solutions in a dynamic environment

EDUCATION

B.E (CSE) with 7.6 (upto VI th semester)

Anjalai Ammal Mahalingam Engineering College, Kovilvenni

2021-2025

HSC - State board with 92%

St.Marcinas Matric higher secondary school, Thanjavur.

2021

SSLC - State board with 88%

St.Marcinas Matric higher secondary school, Thanjavur.

2019

PROJECTS

DRONE FOR DETECTING BODY TEMPERATURE USING MACHINE LEARNING

This project explores the development of a machine learning model to estimate human body temperature using LiDAR and thermal camera data. LiDAR sensors, typically used for distance and spatial mapping, are integrated with infrared temperature sensors to create a combined dataset. By processing and analyzing the point cloud data from LiDAR, relevant features such as body contours and spreading of infection in human body

MULTI-PORT INTERLINKING CONVERTER FOR RENEWABLE ENERGY INTEGRATION

Prototype is designed and developed a simple portable sensor to detect the amount of pesticides present in a particular sample. Using machine learning algorithm the level of pesticides range are detected and provide a alert message to the farmer of excesss pesticide spraying.

INTERNSHIP

• INTERN IQ, THANJAVUR - 30 DAYS

I had learned about the tools used in both front end and back end development of a web page and also the Ideology and the core concept of web development are learned in the intern period

• FANTASY SOLUTION , TRICHY - 30 DAYS

I had learned about the concepts of big data analysis and real-time implementation of data processing technique and statistical analysis in solving of decision makes issues.

SKILLS

- C programming
- Basic Java
- HTML , CSS, Javascript and Node.js
- Basic Cryptography
